

291-B

ADEK 291-B 2U Chassis

Features

The ADEK 291-B 2U rack mount computer case incorporates one 3.5" and one 5.25" bay with all switches and other controls protected by a locking door. The 6-slots provide exceptional expansion capability. The 291-B 2U rack mount chassis accepts standard PS/2 power supplies.

The 291-B ships with the 6-slot butterfly backplane. Optional backplanes are available. These optional ball-bearing sliding rails are ideal for all mounting requirements. Rails are available in 18", 22" and 24" sliding range capacities. Choose the size best suited for you.
