

612-B

ADEK 612-B Chassis

Features

Internally, the ADEK 612-B provides plenty of room for add-on boards (incorporating hold-down boards to protect against shock and vibration). Single or redundant power supplies are easily accommodated. The ADEK 612-B industrial computer case can be used as a mini-tower or as a tabletop computer. It comes complete with brackets for panel mounting, board hold-down brackets and other hardware.

Features and Specifications:

- Use as a mini-tower (vertical) or as a tabletop computer (horizontal)
- Panel mounting brackets included
- Choose rear plate for either Micro-ATX motherboards or for use with 12-slot backplane and single board computer
- Accommodates all FULL LENGTH boards
- External: 2 x 3.5" & 1 x 5.25", Internal: 3.5"
- Large 120 mm fan with washable filter for exceptional cooling even in dusty industrial environments
- Accepts standard PS/2 size power supplies for cost effectiveness and flexible power requirements
- Hold-down brackets keep internal boards secure
- Two front mounted USB ports
- Front Panel: power switch, reset switch, LEDs for power on/off and HDD activity
- Weight: 16.1 lbs.
