AD-315E

3U Industrial Rack Mount Server

We can build the AD-315E industrial server to give you multiple hard drives, optical drives, and up to 8 independently controlled cooling fans to assure reliable performance even in warm environments. This system can support full size standard ATX motherboards and is also available in a 14-slot version for backplane and single board computer combinations. In addition, there is room for full-length, full-height add-on cards in multiple slot configurations.

Features

- Exceptional cooling: one 120mm intake fan and up to seven 60mm out-take fans
- Accepts up to full size ATX motherboards
- External bays: 3 x 3.5″, 2 x 5.25″
- High quality all steel construction
- Accommodates full height, full length add-on cards
- Accepts standard 2U power supplies
- Fan/Temperature fault detection and alarm notification
- Washable and replacable dust filter for use in harsh environments
- Dimensions: 18.93" W x 23.96" D x 5.24" H

ADEK computers are custom manufactured to meet your specific requirements. All images represent typical configurations. Please contact us with your requirements and we will respond with a quote within 24 hours.
