AD-586E

4U Industrial Rack Mount Server

The AD-586E is an extended depth version of our extremely popular 4U system. This 4U industrial rack mount server can be configured for use with full size ATX server boards or with 14-slot backplanes. The extra depth allows for all expansion cards to be full-size (height and width). Multiple configurations are available for a variety of expansion slot requirements, whether you need ISA, PCI, PCIe, PCI-X or others, we can help.

Features
