

AD-827

7U Industrial Rack Mount Computer

Features

- 19" industrial 7U rack mount enclosure
- Accepts up to 18-slot backplanes for add-on cards
- External bays: 2 x 3.5", 6 x 5.25"
- Lockable drive bay door with air filter protection & built-in removable/washable filter
- Three cooling fans with removable air filters
- Front-mounted temperature alarms and dual reset switches
- Adjustable lock-down clamps for add-on card vibration protection
- Dimensions: 16.70" W x 12.23" H x 19.7" D (21.61" D with handles)

The AD-827 7U industrial rack mount computer is a solid steel and aluminum system that can be loaded with power! It's only 19.7 inches deep (without handles), so it mounts into racks with limited depth. This 7U system's large capacity (six 5.25" and two 3.5" drive bays) make it ideal for servers with built-in RAID drive arrays. Adjustable hold-down card clamps and sturdy drive bays provide superior shock and vibration protection. Four fans keep things cool while both fan and drive bay filters protect components even in dusty environments.

Features

- 19" industrial rack mount enclosure
- Only 19.7 inches deep
- 7U high
- Accepts up to 18-slot backplanes for add-on cards
