

MI-301-B

ADEK MI-301 Chassis

Features

The MI-301 accepts mini-ITX boards to offer exceptional flexibility including one PCI slot. This unit can be ordered with either AC or DC power. The ADEK MI-301 is a compact computer case that's sized right for areas in which space is at a premium. In spite of its small size, it accommodates a full-size DVD/CD-ROM drive and provides dual front USB ports and can be configured with a PCI slot. Dual exhaust fans provide sufficient cooling for use in warm industrial environments.

Features and Specifications:

- Accommodates industry standard mini-ITX boards
- Two 60 mm cooling fans with removable filter
- One 5.25" bay for full size DVD/CD-ROM
- One 3.5" internal hard drive bay
- Power and hard drive indicators
- AC and DC power versions available
- Two USB ports on the front panel
- One PCI slot available
